

Retractable Screens | Motorized Screens

*Feel The Breeze*

\*Optional Square or Round Frame Available

The SmartScreen Motorized is designed to control insects, privacy, sun, and weather. At the touch of a button, you can extend the life of your outdoor living space for year-round enjoyment.

### Sizes Up To :

Width	Height
30'	16'

### Benefits :

UV  
Protection

Insect  
Control

Privacy  
Protection

### Versatile Fabrics

Experience the world's finest fabrics in a stunning array of colors and openness levels. Perfectly designed to meet your needs with an ideal blend of style, functionality, and quality.

### Advanced Automation

Powered by an industry-leading motor, the SmartScreen Motorized seamlessly integrates with any home automation system, offering best-in-class convenience.

### Superior Weather Control

Clear vinyl allows you to use your living space year round, even through the cold! Turn up the heaters and open a book while enjoying the scenery outdoor.

\*Optional Recess Application

### Reinforced Roll-Tube

Crafted from premium-grade reinforced aluminum, our design ensures years of trouble-free enjoyment and prevents sagging.

### Extruded Frame

Heavy duty thick gauged Aluminum provides exceptional rigidity and superior corrosion resistance.

### Self Adjusting Tracks

Patented optional track system absorbs high wind and prevents shrinking, making it the best solution for windy areas with heavy fabrics and vinyl.

### Guaranteed Protection

Each screen is precisely measured and made to fit your application, ensuring maximum protection and an exact fit.

*Feel The Breeze*

The SmartScreen is a versatile, manual pull-down screen suitable for windows, patio openings, and garage doors. It effectively controls insects, provides UV protection, and enhances privacy.

**Size Up to :**

**Width      Height**

<b>Standard</b>	<b>12'</b>	<b>10'</b>
<b>Solar</b>	<b>12'</b>	<b>8'</b>
<b>Privacy</b>	<b>12'</b>	<b>7'</b>

**Benefits :**

Harmonious Integration

Captured Mesh

UV Protection

**Garage Screens**

Use your garage as a workshop or additional gathering space. Open the garage door, let the fresh air in, and keep the insects out.

**Slide 'n' Stop Screen**

A unique, floating track system provides smooth and easy operation. Just Slide n' Stop the bottom bar anywhere along the tracks.

**Discrete Design**

Designed with a compact housing and no visible fasteners, the screen virtually disappears with the surrounding finish when not in use.

\*Sheerweave 90% Shade Available

\*Integrated Frame Available

The Horizon screen sets the standard for large retractable screens. Featuring a flat handle, auto-compensating upper track and a low-profile lower track, the Horizon complements large architectural doors of nearly any type and configuration.

### Size Up to :

	Width	Height
<b>Singles</b>	<b>21'6"</b>	<b>11'</b>
<b>Doubles</b>	<b>43'</b>	<b>11'</b>

### Benefits :

### Patented Auto-Stop

The handle features a pull function and sleek flat profile, offering homeowners full control with unlimited brake points. The pull-bar stops anywhere along the tracks when released.

### Captured Mesh

Specialized equipment welds the mesh to the zipper. The tracks capture the zippers, and the mesh is retained all times. No blowouts, frayed mesh or pets on the loose!

### Low Profile

At only 1/2" high, the lower track blends seamlessly into every application. It's designed for simple installation and provides for a smooth transition between spaces.

\*Screens Tested to withstand wind speeds over 75 mph.

*Feel The Breeze*

The VistaView™ screen operates effortlessly from side-to-side. It works perfectly with a variety of door configurations, sizes and finishes.

**Size Up to :**

	Width	Height
<b>Singles</b>	<b>14'6"</b>	<b>12'</b>
<b>Doubles</b>	<b>29'</b>	<b>12'</b>

**Benefits :**

Clear Vision

Insect Control

Ventilation

**Patented Auto-Stop**

The handle features a turn function for full control and unlimited brake points. The pull-bar stops anywhere along the tracks upon release, ensuring simple operation.

**Captured Mesh**

Specialized equipment welds the mesh to the zipper. The tracks capture the zippers, and the mesh is retained at all times. No blowouts, frayed mesh or pets on the loose!

**Recessed Track**

The lower track can be recessed, providing a smooth transition and flush appearance to suit certain applications.

**\*Screens Tested to withstand wind speeds over 75 mph.**

The VistaView™ Plus upgrades our leading screen system with a sleek alloy handle, innovative latching for easy operation and powder-coated finishes for refined aesthetics and improved functionality.

**Size Up to :**

	Width	Height
<b>Singles</b>	<b>14'6"</b>	<b>12'</b>
<b>Doubles</b>	<b>29'</b>	<b>12'</b>

**Benefits :**

Ventilation

Insect Control

Clear Vision

**Premium Alloy Handle**

Introducing our new premium alloy handle. Homeowners gain full control with unlimited brake points, and the pull-bar automatically stops when released.

**Captured Mesh**

Special Equipment welds the mesh to the zipper. The tracks capture the zippers, and the mesh is retained at all times. No blowouts, frayed mesh or pets on the loose!

**Advanced Latch System**

The latch system, designed without magnets, ensures homeowners can easily open the screen with minimal effort.

**\*Screens Tested to withstand wind speeds over 75 mph.**

*Feel The Breeze*

The BetterView screen combines superior aluminum and UV-resistant fiberglass mesh for durability. Its sleek 2" housing profile fits seamlessly with various doors and windows, offering both functionality and aesthetic appeal.

### Size Up to :

	Width	Height
<b>Pull-across</b>	6'	8'
<b>Pull-down</b>	6'	5'

### Benefits :

Insect Control

Ventilation

Clear Vision

### Captured Mesh

Specialized equipment welds the mesh to the zipper. The tracks capture the zippers, and the mesh is retained at all times. No blowouts, frayed mesh or pets on the loose!

### Latching Pull Bar

The Pull-bar provides simple "one-touch" latch and release functionalities without the need for magnets, pulleys, or cables.

### Speed Reducer

Speed reducing, smooth-glide technology allows the screen to "self-retract" at a controlled speed from start to finish. No more doors slamming closed!

The RetractableView screen is the convenient, elegant solution for your home, meeting today's modern home design trends.

**Size Up to :**

	Width	Height
<b>Singles</b>	4'6"	9'
<b>Doubles</b>	9'	9'

**Benefits :**

Harmonious Integration

Ventilation

Insect Control

**Glide Smooth Technology**

Smooth operation across the entire opening is made possible by silicone-injected, nylon components. No binding!

**Compact Housing**

With a small-profile housing, you will hardly notice it's there! With eight standard colours to choose from, it will integrate seamlessly within any home.

**Versatile Design**

The RetractableView is a great screen solution for single doors, French doors, patio sliders, and windows.
